

# SOCCEK

## CERTIFICATE

I have examined the soccer performance of Mr. JOHN ANDERSEN (a Swedish/Danish/U.S. citizen) as of August 17, 1978 and his related physical outcome and changes in physical condition for the game then ended. My examination was made in accordance with generally accepted medical standards and accordingly included such tests of the soccer capability and such other physical procedures he might be able to perform, as I considered necessary in the circumstances, except as explained in the following paragraph.

This was the first examination of the person's soccer performance and his related physical condition and, as instructed, the scope of my engagement did not include a sufficient examination with respect to the physical condition as of last P/M meeting to enable me to issue a certificate on the consistency of the person's physical condition.

In my opinion, the soccer performance of Mr. JOHN ANDERSEN as of August 17, 1978 and the result of his physical outcome and changes in physical condition for the game then ended, present fairly what should be expected in conformity with generally accepted medical standards.
